**Entrepreneurial Mindset
development for Mother -
Startuppers
Through Role Models**

WHO WE ARE

We are an Erasmus + project named "Mumpreneurship". The project is based on the values of gender equality and especially the participation of mothers in the field of innovative and social entrepreneurship.

OUR GOALS

We aim to:

- promote economic, social and gender equality in entrepreneurship
- promote VET education accessibility of entrepreneurship education for mothers especially those facing additional challenges.
- empower women to successfully combine their work and family life
- bring out the importance of working and innovating for the mother's psychological, emotional, cultural, social balance and wellbeing
- fight stereotypes against women who want to work again after their childbirth
- inspire mothers through role-model education
- enhance mothers' skills and competences relating to entrepreneurship
- empower VET trainers/educators/relevant professionals regarding mumpreneurship and offer them new tools

WHO IS THIS PROJECT FOR?

- Are you a mother, who wants to start your own business but are facing challenges?
- Are you working in the education field supporting young female entrepreneurs during the first steps of their careers?

Then this project is for you!
